

Atempo Data Management

KEEPING AN I ON YOUR IT

IDG-S is a value-added Australian distributor focused on delivering services and solutions for the highly specialised area of data storage, data security, data management, and data transport.

About Atempo

Uniquely Powerful

Simply and Effectively Protect, Manage, Archive and Recover Digital Information

Atempo enables organisations to protect, manage, archive, and recover digital information simply and effectively, across any infrastructure, on any platform, over any period of time. Atempo provides a comprehensive portfolio of integrated software solutions, including backup and recovery of servers, continuous data protection of workstations and laptops, and long-term archiving of files and email messages. Atempo simplifies the management of data throughout its entire lifecycle by providing unprecedented visibility and control over data growth, infrastructure cost, and risk mitigation. Atempo serves thousands of customers around the world through a sales and support network of over 200 resellers and partners.

Products

Uniquely Powerful

Get the most flexible and comprehensive data protection available for your business without compromising IT simplicity. Our award-winning security, storage and recovery technology is known for dramatic speed and ease of use that vastly simplifies IT operations.

Whether you're managing a small remote office, a departmental workgroup or a complete, multi-location enterprise, the Atempo family of products offers complete protection of your data throughout its lifecycle.

Atempo Time Navigator™

Uniquely Powerful

Combining the best of data protection and storage security, Atempo Time Navigator offers an advanced, high-performance protection and archival solution for heterogeneous environments.

Powerful and easy to use, Atempo Time Navigator makes it easy to manage enterprise data throughout its lifecycle and meet critical business requirements, from digital privacy and regulatory compliance to long-term archiving. A unique approach to data restoration locates and restores individual files from any point in time and any tier of storage.

Atempo Live Backup™

Uniquely Powerful

Atempo Live Backup is an enterprise-level data protection solution that automatically backs up corporate data.

With its unrivaled continuous data protection technology, Atempo Live Backup provides a transparent solution that has no impact on end user performance or network workload. With Atempo Live Backup, customers have the peace of mind that their laptops and desktops are automatically and continuously backed up—with all system information available for instant recovery if a laptop crashes or is lost or stolen.

Atempo Live Backup gives end users the ability to recover their own files, while IT administrators can centrally manage all distributed data assets. Today, hundreds of customers around the world rely on Atempo Live Backup.

Atempo Digital Archive™

Uniquely Powerful

Atempo Digital Archive offers enterprise-level archiving solutions to solve the growing problem of managing storage resources and ensuring long-term protection of business-critical data.

The growing amount of digital information traveling on the network, over email and stored on different tiers has become an everyday challenge for IT administrators. Atempo Digital Archive and Atempo Digital Archive for Messaging enable infrastructure consolidation while ensuring secure and long-term protection of your information.

Atempo Digital Archive - Solutions for secure long-term archiving of your files and other digital assets

Atempo Digital Archive for Messaging - Solutions for e-discovery, compliance, email archiving, and instant message archiving
